Masarykovo gymnázium, Střední zdravotnická škola a VOŠ zdravotnická Vsetín   **2026**

Seminars: Programming, Mathematics, English

PROFESSIONAL EXPERIENCE

No professional working experience yet.

PROJECTS & EXTRACURRICULAR

C# ASP.NET - Library System API- GitHub   **June-July/2024**
- **A REST API for a library system featuring users, employees, authors, genres, books, borrowing system, wishlists, reviews and custom email service.**
- Held together by **60+** tests and clean architecture, utilizes JWT authentication.
- This project showcases my ability to engineer and maintain complex .NET projects.

GO - Demo - Bank API - GitHub   **April/2024**
- **A REST API for a banking system featuring users, accounts, transactions and more.**
- Uses token authentication, hexagonal architecture and is secured by many tests.
- This project showcases my skills in Go and API development.

C# ASP.NET - HikeTracker API - Github   **May/2024**
- **A REST API for a hike tracking application.**
- Utilizes JWT authentication, clean architecture and is thoroughly tested.
- This project showcases my ability to develop API in ASP.NET.
